2nd World Yachting Sustainability Forum

A conference organised by Confindustria Nautica and IBI - International Boat Industry

Friday 22 september 2022 - h 10:30

Forum Hall - Blue Pavillion - 63° Genoa International Boat Show

10.00am - 10.30am Registration

10.30 am -10.50am

Welcome by Andrea Razeto, VP Confindustria Nautica and Ed Slack, Editor-in-chief, IBI

10.50am - 11.15am

What do initial de-carbonisation study findings mean in the quest for carbon neutrality?

Patrick Hemp, ICOMIA gives insight into the findings of the the first in-depth third-party study into the pros and cons of alternative fuel and propulsion systems forthe leisure marine sector.

Regulation roadmap - Patrick Hemp examines the regulatory changes afoot that could define the industry timetable for change.

11.15am – 11.35am

Developing the right infrastructure roadmap

How do we make sure we do not repeat the errors of the auto sector when it comes to infrastructure development?

IBI Editor Ed Slack is joined by Patrick Hemp (ICOMIA), Michele Bolpagni (Aqua Superpower), Jochen Czabke (Seaman Consultants) and Tommaso Negri (PlenitudeBeCharge) to debate why we need a collaborative approach to create a sustainable, relevant infrastructure for tomorrow.

11.35am -12.10pm

How can the industry successfully align itself successfully to new technologies?

We debate the pros and cons to methanol/hydrogen fuel, assessing limits and potential of the latest technologies; and how boatbuilders and infrastructure must adapt.

IBI Editor Ed Slack leads a panel discussion and will be joined by Giuseppe Sancho (Siemens-Energy), Paolo Izzo (Lloyds Register), Vasilis Gregoriou (Advent) to debate effective solutions.

12.10pm – 12.20pm

Closing remarks
